

FELLOW

Clara French Press

Start your day on a bright note.

With Clara, we thought about everything. Enhanced filtration mesh, easy clean non-stick coating, ratio aid lines, an agitation stick, and so much more. Whether you want to dial-in a recipe or brew while entertaining, you'll always end up with an elevated cup.

Features:

EASY TO USE

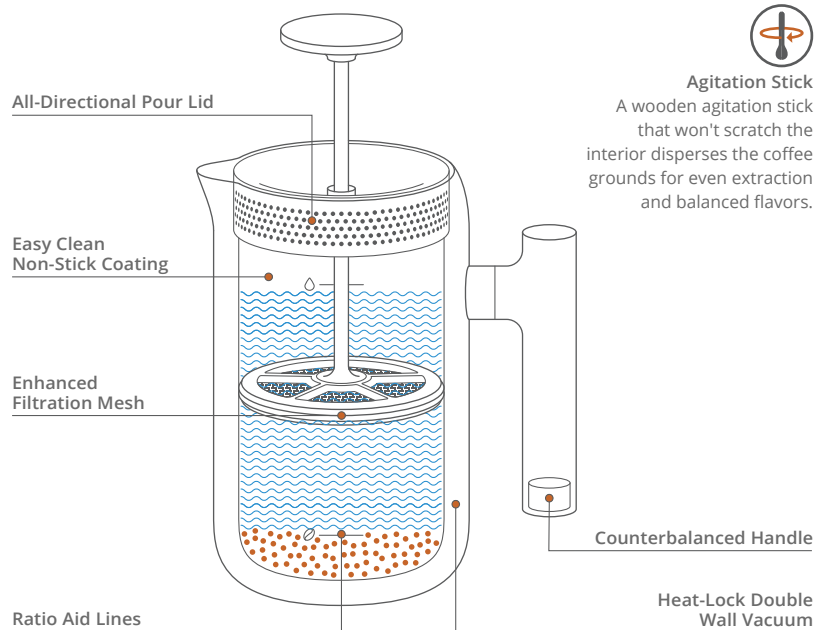

No scale? No problem. Load grinds up to the coffee line and hot water up to the water line. Clara's ratio aids take out the not-quite-awake-yet guesswork for the perfect 24 oz batch every time. Bada bing, bada brew.

THOUGHTFUL DETAILS

An All-Directional Pour Lid is always open for business without needing to align the spout while an oversized press feels like a dream in your palm. And because we do sweat the small stuff, we added an agitation stick to aid in extraction.

CLEAN CUP

Don't let sludge and silt bum a ride into your mug. Clara's Enhanced Filtration Mesh brings out clean and complex flavors in a full-bodied brew. For easy clean up, make a dash for the compost bin and watch the slick interior coating go to work.

Product Details:

SIZE

Coffee Capacity: 24 oz
Dimensions (LxWxH):
170 mm X 115 mm X 200 mm
Diameter: 115 mm
Weight:
917 g (with plastic handle),
